Dear Cougar Families,

Greetings to you from Lutheran High School! Lutheran High School offers its students tremendous opportunity for academic, personal, and spiritual growth in a Christ centered environment. At the heart of our mission is preparing students for lives of Christian service.

The purpose of this letter is to provide you with information regarding the iPad program requirements at Lutheran High. With the Christmas season approaching and the many Black Friday sales, we want to pass along some important information about purchasing an iPad for student use at LHS. Now is the time of year, many parents make this purchase for the upcoming school year.

The specific requirements are outlined below:

- Each student will provide his/her own iPad. Other tablets, e-readers, chromebooks, laptops, etc. are not compatible with the expectations for students.
- The most recent generation of iPad Pro, iPad Air, or the iPad, wi-fi only, with at least 64GB of storage should provide new students with the tool needed for all four years of high school. Please consult [apple.com/ipad](http://apple.com/ipad) for the most up-to-date information on pricing and options.

The iPads will be used in classes for research, as textbooks, for assignment production, and to manage electronic assignment workflow. The degree to which the iPad is used varies by class. Many classes use the iPad, yet some use “old fashioned” paper, pencil, and hardcover textbooks. The iPad is another tool in the toolbox of a 21st century classroom.

If the purchase of the iPad presents too large of a financial burden for your family, please contact the school office; we are willing and able to assist you. If you have any questions about the technical requirements of the iPad, feel free to contact our Technology Coordinator, Mrs. Tripp, [tripp@lhssc.org](mailto:tripp@lhssc.org).

In Christ,

Jon Bernhardt  
Principal
