

Computer - Technology Acceptable Use Policy (AUP)

These policies and guidelines are intended for all users of technology and network resources at Lutheran High School.

General Computer Use Guidelines

1. LHS requires all faculty, staff, students and parents or official guardian to accept in writing the provisions set forth in the Technology Acceptable Use Policy (AUP) by signing and submitting the Acceptable Use Permission Form (pg.5). The user's device will not be given network access nor will the user receive access to LHS resources, PowerSchool, Canvas, LHS servers, until this form is received. The AUP is a guide. Prohibited behaviors and consequences are not intended to be exhaustive. Users are to use good judgement and Christian standards of ethics to guide their behaviors. LHS reserves the right to sanction any behavior deemed inappropriate by the administration.
2. Each user will be allowed one personal device on the LHS Mobile Network. LHS issued devices are additional to this count.
3. Technology users are responsible for proper use of a computer/iPad and associated resources. Users will be financially responsible for damages to computers/iPads and associated resources, if owned by LHS, caused by negligent, improper, or malicious use.
4. Device users should have no expectation of privacy in the use of their device and network resources provided by Lutheran High School. Computer files and data contained in these files are the property of Lutheran High School.
5. Student data files will not be routinely monitored by LHS personnel. However, access to technology is a privilege not a right. If a student gives any administrator, teacher or staff member cause to believe that they may be participating in prohibited behavior, that student's data files may be searched without student knowledge or permission.
6. Unauthorized use of technology resources includes but are not limited to:
 - Use which violates federal or state law.
 - Unauthorized access (or attempted access) to administrative files, other user files or protected or private computer resources.
 - Activities that disrupt normal computer/network use and services including but not limited to propagation of viruses and/or use which ties up network resources to limit the access of others.
 - Damaging or altering school technology equipment or supplies
 - Use of technology resources to produce, transmit, store or display text or graphics which are inappropriate or unlawful information. This includes, but is not limited to any pornographic material, material that is lewd or suggestive, alcohol or drug related, material which disparages a particular race, gender, religion or nationality, or material considered excessively violent in nature.
 - Unauthorized use of technology resources for financial, commercial or political gain is prohibited.
 - Gaming during class.
7. Users may not attempt to circumvent any protective schemes installed on the devices or network at Lutheran High School. (This includes the use of a personal VPN etc...)
 - Misuse of technology resources is subject to disciplinary action according to school policy. Consequences for students may include but are not limited to loss of all device use privileges, suspension or expulsion from LHS. Loss of school technology privileges will not release a student from responsibility for technology-related work in courses and consequently may also have a negative impact on academic grades.
8. Violation of US or Missouri laws may result in legal action.

Software Use Guidelines

The following applies to all software and data at Lutheran High School, whether owned by the school or owned by a vendor and licensed to the school.
